FROM JUNE 15TH TO 19TH, IOM HAS SERVED NEARLY 7,000 PEOPLE WHO FLED MOSUL
JUNE 15th - 19th DISTRIBUTIONS
Since June 15th, IOM has worked around the clock to provide much needed assistance to people fleeing the recent violence in Mosul and the surrounding governorates. With local authorities and the UN Country Team, IOM has distributed 1,160 IOM Non-Food Item (NFI) emergency packages, 820 food packages and 820 hygiene kits provided by WFP and UNICEF respectively to vulnerable families in six communities throughout Ninewa, Dohuk, and Erbil, serving an estimated 6,960 people (using 6 as the average family size in Iraq).

IOM remains among the fastest responders to the Mosul crisis through swift action and dedicated staff working overtime. On June 18th at 7:30 pm, IOM received a request from the Erbil Governor Office to provide emergency relief to newly arrived IDP families in Bahirka. Within three hours, IOM staff had loaded trucks and driven to the distribution site, and by 10:30 pm, IOM staff had distributed 40 IOM NFI emergency packages, providing essential support to an estimated 240 people displaced from Salah Al-Din.

Over the past two weeks, IOM teams have also assessed 146 locations with 141,123 displaced persons. According to the field assessments, the majority of the IDPs most urgently need NFIs, followed by food and shelter.

In the coming days and weeks, IOM will continue to distribute essential packages and further assess the needs of the displaced.
Distribution preparation begins as early as the previous evening or as late as only a few hours before at the IOM Iraq Central Warehouse in Erbil, where all the items that make up an IOM NFI emergency package are organized, catalogued, and stored. IOM staff load items for NFI kits onto trucks, which leave early the next morning to reach the distribution sites, where they will be unloaded and arranged for beneficiaries.
Here we live with my son. There are eighteen of us in one room. We escaped violence, but this is still no way to live.”

- Khaled from Mosul
